

The Murrieta plan is a modern design that features multiple master suites branching away from a central dining and entertainment space. Each suite contains a full bath, with generous storage space provided by a walk-in closet. Ten-foot volume ceilings allow a more spacious feel throughout the house. The plan includes a self-contained media room with an enclosed closet for wiring and hardware accessibility. The garage showcases a side-entry design with room for multiple vehicles.

Murrieta
 2,949 sq. ft. living space
 3 bedroom, 3 1/2 bath
 + home theater/office
 3 car garage
 10 ft. ceilings
